SUMMARY

Software Developer with hands-on experience building and maintaining web applications and contributing to a SaaS Workforce Management platform. Experienced in React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and access control, with a focus on building reliable features across frontend and backend.

EXPERIENCE

Software Developer

Vitorscape Technologies

June 2025 - Present

Mumbai, India

Tech Stack: React.js, Chart.js, Redux Toolkit, Node.js, Express.js, MongoDB

- Contributed to a SaaS workforce management platform delivered to a client, covering employee tracking, attendance, payroll, and multi-level approval workflows.
- Built **React.js** modules for attendance sheets, compliance, inventory and asset management, and company administration, managing state with **Redux Toolkit** and **Context API**.
- Developed and integrated **REST APIs** with **Node.js**, **Express.js**, and **MongoDB**, with error handling on both client and server.
- Implemented **JWT authentication** and **role-based access control (RBAC)** to secure application features by role.
- Implemented **server-side pagination, filtering, and data export** for large datasets, and built reusable components (search hook, shared toolbar, fetch modal) to standardize list screens across modules.
- Built HR dashboards with **Chart.js** for attendance and location analytics, plus a polling-based notification system.

Software Developer Intern

Vitorscape Technologies

January 2025 - June 2025

Mumbai, India

- Developed frontend features and integrated REST APIs for the Workforce Management platform.
- Fixed bugs and shipped improvements in collaboration with the development team using Git.

PROJECTS

Next Boarding | React.js, Node.js, Express.js, MongoDB, Redux Toolkit | [GitHub](#) | [Demo](#)

- Built a full-stack travel booking platform with the **MERN** stack, enabling users to search trips, select seats, and manage bookings.
- Implemented multi-step booking flows, trip search, and interactive seat maps using React.js, Hooks, and Redux Toolkit.
- Developed **REST APIs** with **Node.js**, **Express.js**, and **MongoDB** to manage trips, users, seats, and booking data.
- Implemented **JWT authentication**, **RBAC**, email verification, password recovery, and booking confirmation emails using **Nodemailer**.

Admin 360 | Next.js, MongoDB, Redux Toolkit, Chart.js | [GitHub](#) | [Demo](#)

- Built a full-stack admin dashboard with **Next.js** and **MongoDB** to manage customers, products, and orders, with interactive **Chart.js** visualizations.
- Built data tables with **search, filtering, pagination**, and dark mode, using **Redux Toolkit** for application state management.
- Developed backend APIs with **Next.js API Routes** and **MongoDB** to handle application data and operations.
- Implemented **JWT authentication**, **RBAC**, protected API routes, and automated email notifications using **Nodemailer**.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, React Hooks, Context API, Redux Toolkit, Tailwind CSS, Chart.js, Responsive Design

Backend: Node.js, Express.js, REST APIs, API Integration, Middleware, Nodemailer

Database: MongoDB

Authentication & Security: JWT, Role-Based Access Control (RBAC), Protected Routes

Deployment: Vercel, Render, Environment Configuration

Tools: Git, GitHub, Postman, VS Code, Chrome DevTools, Figma

EDUCATION

Bachelor of Technology in Internet of Things | **CGPI: 9.10**

Thakur College of Engineering and Technology

2021 - 2025

Mumbai, India
