SUMMARY

Software Developer with 1.5+ year of experience building responsive and scalable web applications using React.js, Redux Toolkit, RTK Query, JavaScript, HTML, CSS, and REST APIs. Experienced in developing reusable UI components, integrating backend APIs, implementing responsive designs, and collaborating in Agile teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, C++

Frontend: React.js, Next.js, React Hooks, Redux Toolkit, RTK Query, Tailwind CSS, Shadcn UI, Framer Motion, Chart.js

Backend: Node.js, Express.js, REST APIs, Next.js API Routes, Middleware, Nodemailer

Databases: MongoDB

Cloud & DevOps: Vercel, Render, CI/CD Pipelines, Environment Configuration

Security: JWT Authentication, Role-Based Access Control (RBAC), Encryption/Decryption

Developer Tools: Git, GitHub, Postman, VS Code

EXPERIENCE

Software Developer

Webxces Technologies

Jan 2025 - Present

Mumbai, India

Tech Stack: React.js, Redux Toolkit, RTK Query, Node.js, Chart.js, MongoDB

- Developed and maintained scalable **SaaS web applications** for HRMS, attendance management, approval workflows, and payroll operations, delivering production-ready features for enterprise customers.
- Built reusable, **component-based** user interfaces using **React.js**, improving code maintainability, reducing duplication, and accelerating feature delivery across multiple modules.
- Integrated **REST APIs** using **RTK Query** with automated caching, re-fetching, backend-driven pagination, filtering, and centralized state management through **Redux Toolkit**.
- Translated UI designs into responsive, cross-browser compatible interfaces and developed interactive dashboards, tables, approval workflows, filters, and **Chart.js** visualizations for real-time business operations.
- Implemented secure authentication and authorization using **JWT**, **Role-Based Access Control (RBAC)**, client-side encryption/decryption.
- Improved application performance through **lazy loading**, **memoization**, optimized rendering, and reusable components, delivering responsive layouts, dark mode support, and an enhanced user experience.
- Collaborated with designers and backend developers in an Agile environment to develop, debug, test, and deploy production-ready frontend features.

PROJECTS

Next Boarding | *React.js, Node.js, Express.js, MongoDB, Redux Toolkit* | [GitHub](#) | [Demo](#)

- Developed a **full-stack travel booking platform** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, enabling real-time trip search, seat selection, and booking management through **RESTful APIs**.
- Built a responsive, component-based frontend with **React.js** and **Redux Toolkit**, implementing multi-step booking flows, interactive seat maps, and real-time availability updates across devices.
- Designed and integrated secure backend services featuring **JWT authentication**, email verification, password recovery, booking confirmation emails via **Nodemailer**, and role-based user access.
- Optimized application performance through centralized state management, reusable components, efficient API integration, and responsive UI design to deliver a seamless user experience.

Admin 360 | *Next.js, MongoDB, Redux Toolkit, Chart.js, JWT* | [GitHub](#) | [Demo](#)

- Developed a full-stack **admin dashboard** using **Next.js**, **MongoDB**, and API Routes for managing customers, products, and orders with interactive **Chart.js** visualizations and real-time analytics.
- Built responsive, component-based user interfaces with **Next.js** and **Redux Toolkit**, implementing dynamic dashboards, data tables, filtering, search, pagination, and dark mode for an enhanced user experience.
- Implemented secure backend functionality using **JWT authentication**, **Role-Based Access Control (RBAC)**, and protected API routes to ensure role-based access to application features.
- Optimized application performance through efficient state management, reusable components, API integration, and automated email notifications using **Nodemailer**, improving scalability and maintainability.

EDUCATION

Thakur College of Engineering and Technology

Bachelor of Technology in Internet of Things | **CGPI: 9.10**

Mumbai, India

2021 – 2025
