SUMMARY

Frontend Software Developer with 1+ year of experience building responsive and scalable web applications using React.js, JavaScript, HTML5, CSS3, Redux Toolkit, RTK Query, and REST APIs. Experienced in developing reusable UI components, integrating backend APIs, implementing responsive and cross-browser compatible interfaces, optimizing frontend performance, and collaborating with designers and backend developers in Agile environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3,

Frontend: React.js, Next.js, React Hooks, Redux Toolkit, Tailwind CSS, SCSS, Shadcn UI, Chart.js, AJAX, Responsive Design, Cross-Browser Compatibility

Backend: Node.js, Express.js, REST APIs, Next.js API Routes, Middleware, Nodemailer

Databases: MongoDB

Build Tools: Webpack, npm, Vite

Cloud & DevOps: Vercel, Render, CI/CD Pipelines, Environment Configuration

Web Standards: Semantic HTML, Accessibility (WCAG), SEO, Core Web Vitals, Web Performance Optimization

Security: JWT Authentication, Role-Based Access Control (RBAC), Encryption/Decryption

Developer Tools: Git, GitHub, Postman, VS Code, Chrome DevTools, Figma

EXPERIENCE

Software Developer

Webxces Technologies

July 2025 - Present

Mumbai, India

Tech Stack: React.js, Redux Toolkit, RTK Query, Node.js, Chart.js, MongoDB

- Developed and maintained scalable **SaaS web applications** for HRMS, attendance management, approval workflows, and payroll operations, delivering production-ready features for enterprise customers.
- Built reusable, **component-based** user interfaces using **React.js**, **JavaScript**, **HTML5**, and **CSS3**, implementing responsive, cross-browser compatible designs with a focus on maintainability.
- Integrated **REST APIs** using **RTK Query**, implementing automated caching, re-fetching, pagination, filtering, and centralized state management through **Redux Toolkit**.
- Optimized frontend performance through **lazy loading**, **memoization**, optimized rendering, reusable components, and efficient API integration to improve responsiveness and user experience.
- Collaborated with designers and backend developers in an Agile environment to develop, debug, test, and deploy production-ready frontend features while translating UI designs into interactive web interfaces.

PROJECTS

Next Boarding | *React.js, Node.js, Express.js, MongoDB, Redux Toolkit* | [GitHub](#) | [Demo](#)

- Developed a **full-stack travel booking platform** using **React.js**, **JavaScript**, **Node.js**, **Express.js**, and **MongoDB**, enabling real-time trip search, seat selection, and booking management through **REST APIs**.
- Built responsive, **component-based** user interfaces using **React.js**, **HTML5**, **CSS3**, and **Redux Toolkit**, implementing multi-step booking flows and interactive seat maps across devices.
- Implemented secure backend functionality with **JWT authentication**, email verification, password recovery, booking confirmation emails using **Nodemailer**, and role-based user access.
- Optimized application performance through reusable components, efficient API integration, centralized state management, lazy loading, and responsive UI design for an improved user experience.

Admin 360 | *Next.js, MongoDB, Redux Toolkit, Chart.js, JWT* | [GitHub](#) | [Demo](#)

- Developed a full-stack **admin dashboard** using **Next.js**, **MongoDB**, and API Routes with interactive **Chart.js** visualizations for managing customers, products, and orders.
- Built responsive, **component-based** user interfaces using **Next.js**, **JavaScript**, **HTML5**, **CSS3**, and **Redux Toolkit**, implementing dashboards, tables, filtering, search, pagination, and dark mode.
- Implemented secure authentication using **JWT**, **Role-Based Access Control (RBAC)**, and protected API routes to ensure secure access to application features.
- Optimized application performance through reusable components, efficient API integration, state management, and automated email notifications using **Nodemailer**, improving scalability and maintainability.

EDUCATION

Thakur College of Engineering and Technology

Bachelor of Technology in Internet of Things | **CGPI: 9.10**

Mumbai, India

2021 – 2025
