SUMMARY

Full Stack Developer with hands-on experience building and maintaining MERN stack web applications and contributing to a SaaS Workforce Management System. Skilled in React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and performance optimization.

EXPERIENCE

Software Developer

Vitorscape Technologies

June 2025 – Present

Mumbai, India

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Chart.js

- Built a SaaS Workforce Management platform from scratch, designing core features for employee tracking, attendance, payroll, and multi-level approval workflows.
- Developed and integrated seamless **REST APIs** using **Node.js** and **Express.js**, connecting the backend securely with **MongoDB** to keep data flow fast and reliable.
- Built clean, responsive frontend modules in **React.js**, managing complex application state efficiently using **Context API** and **Redux Toolkit**.
- Protected the platform and managed user permissions by implementing **JWT authentication**, strict **role-based access control (RBAC)**, and server-side pagination for large records.
- Handled end-to-end API integration between client and server architectures, ensuring smooth error handling and responsive UI data rendering.
- Collaborated directly with the core team using **Git** to ship new features, handle integrations, and resolve bugs in a fast-paced development cycle.

PROJECTS

Next Boarding | [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#), [Redux Toolkit](#) | [GitHub](#) | [Demo](#)

- Developed a **full-stack travel booking platform** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, enabling users to search trips, select seats, and manage bookings through **REST APIs**.
- Built interactive frontend features using **React.js**, **React Hooks**, and **Redux Toolkit**, including multi-step booking flows, trip search, and interactive seat maps.
- Developed backend APIs using **Node.js** and **Express.js**, with **MongoDB** for managing trips, users, seats, and booking data.
- Implemented **JWT authentication**, **email verification**, **password recovery**, **role-based access control**, and booking confirmation emails using **Nodemailer**.

Admin 360 | [Next.js](#), [MongoDB](#), [Redux Toolkit](#), [Chart.js](#), [JWT](#) | [GitHub](#) | [Demo](#)

- Developed a **full-stack admin dashboard** using **Next.js**, **MongoDB**, and **API Routes** for managing customers, products, and orders with interactive **Chart.js** visualizations.
- Built dashboard interfaces using **Next.js**, **JavaScript**, and **Redux Toolkit**, implementing data tables, search, filtering, pagination, and dark mode.
- Developed and integrated backend APIs using **Next.js API Routes** and **MongoDB** for application data and business operations.
- Implemented **JWT authentication**, **Role-Based Access Control (RBAC)**, **protected API routes**, and automated email notifications using **Nodemailer**.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, React Hooks, Context API, Redux Toolkit, Tailwind CSS, Chart.js, Responsive Design

Backend: Node.js, Express.js, REST APIs Development, API Integration, Middleware, Nodemailer

Database: MongoDB

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), Protected Routes

Cloud & Deployment: Vercel, Render, Environment Configuration

Developer Tools: Git, GitHub, Postman, VS Code, Chrome DevTools, Figma

EDUCATION

Bachelor of Technology in Internet of Things | **CGPI: 9.10**

Thakur College of Engineering and Technology

2021 – 2025

Mumbai, India
